

end_decision

```
graph LR; A[end_decision] --> B[win_or_loss_decision]
```

A flow diagram consisting of two rectangular boxes connected by a blue arrow. The first box on the left is gray and contains the text 'end_decision'. A blue arrow points from the right side of this box to the left side of the second box. The second box on the right is white with a black border and contains the text 'win_or_loss_decision'.

win_or_loss_decision
